

CTC 14 Reducer

Carpet to Concrete – $\frac{1}{4}$ "(H) to 0" x $1\frac{5}{16}$ "(W)

- Designed for glue down carpet or vinyl to concrete floors.
- Offers $\frac{1}{4}$ " Reveal to protect the edge of the carpet or vinyl.
- Anchoring leg has slight pitch to reduce the amount of flashing needed when installing soft surface flooring.
- No perforations in anchoring leg – made with solid anodized aluminum for better adhesion to concrete.
- Available in Clear, Champagne, Medium Bronze, Dark Bronze, and Matte Black anodized finishes.

Installation Instructions

- Adhere leg to sub-floor with adhesive that bonds metal.
- Cover leg with same adhesive and install flooring material – tuck under overhang.
